6. Audit

Once in any 12-month period, on 30 days' notice, the Controller may audit our compliance with this DPA by written questionnaire and review of our security documentation; an on-site audit may be requested where a regulator requires it or following a breach, at the Controller's cost and subject to confidentiality.

7. Liability and precedence

Liability under this DPA is subject to the limitations in the Terms of Service. If there is a conflict between this DPA and the Terms, this DPA prevails for data-protection matters.
